Make A Print Of Your Information

① Set the map up how you would like to see it.
② Click the "Print" tool from the toolbar.
③ Choose the type of print you would like to make.

Notes:
• Map Only: will print the map, as you see it in a border taking up most of the page.
• Plain Text Report: will print a report containing basic and often used information about the property that is selected. (A property must be selected for this type of print job)
• Graphical Report: will print the map, the structure photo, the structure sketch and some basic text information. You may select where each feature appears in the report manager. (A property must be selected for this type of print job)

Other Notes:
• You may print the results list by clicking the "Print These Results" link that appears at the bottom of the Results List.
• Data Screens may be printed by utilizing the "Print" button located on each screen.
